

The Bible in the order it happened

Starting at Genesis 1 - one day at a time, together.

WHY CHRONOLOGICAL?

Read it the way it unfolded

Most of us read the Bible book by book. In The Study you read every book in the order the events took place - and the whole story finally fits together.

Job beside Genesis, in the days of the patriarchs.

The Psalms woven into David's life, where they belong.

The prophets beside the kings they spoke to.

The four Gospels side by side, as one story of Jesus.
